

Ready, Set, Grow!

Ready, Set, Grow! (RSG) is a 4-H school enrichment project for 4th grade students to teach them the importance of plants to people and the environment in fun and imaginative ways.

Teams of two trained Master Gardeners present two (2) hours of instruction with several hands-on and interactive activities and students get the opportunity to plant their own seeds to take home. This project is available to interested 4th grade classrooms in the Fairfax County Public School system at no charge, but is limited based upon the number of volunteers available.

Presentations are conducted in the classrooms from mid-February through mid-April.

Impact on our Community

During the 2010 spring season 29 Fairfax and 15 Green Spring Master Gardeners taught basic plant anatomy and life processes in 88 classrooms throughout 28 schools to 2,185 students in our county.

Are You Interested? ...

If you are an interested parent, teacher, FCMGA or Green Spring Master Gardener volunteer contact the *Ready, Set, Grow!* Project chair at readyssetgrow@fairfaxmastergardeners.org.
