

The 4-H LEGO Robotics Club promotes essential workplace skills in youth ages 9 –18. Students will explore teamwork, collaboration, and leadership while learning to appreciate science and technology.

Youth learn to build structurally sound Lego Robots as well as how to program these robots.

The 4-H LEGO Robotics Club holds a monthly meeting and has the opportunity to compete in a fall competition with First LEGO League of Virginia (additional fee is required).

For more 4-H information contact:
